FACTS CONCERNING THE STREET PAVING QUESTION IN XENIA

Probably one of the most interesting questions the citizens of Xenia have before them today is the paving question. During the past few days so many rumors regarding the paving question have been afloat that they have been tumbling over each other in their mad rush from mouth to mouth. Some of these rumors have been to the disparagement of City Manager Riddle and the members of the city commission. It seems to be a human failing for people to believe such rumors and pass them along. And as was stated before, they have not been slow in passing them along. In order to clear up the whole matter, and put the City Manager and members of the city commission straight with the city, the writer took the whole matter up with City Manager Riddle Friday afternoon. Mr. Riddle was acquainted with all the rumors which are afloat and was asked for a plain statement of facts concerning the paving question.

The first rumor set at rest was the one regarding the determination of City Manager and the commission to pave Xenia's streets with cement concrete whether the property owners wanted that sort of paving or not. It has been freely stated on the streets that such was the case. Mr. Riddle stated without reservation that it is not and never has been the intention of the city government to give the property owners on the streets to be paved any kind of paving except the kind they want. The estimates for paving were made for each street separately in order that each street might have the opportunity of choosing the sort of paving it wants. Personally Mr. Riddle thinks cement concrete would be a good kind of paving on some of the streets to be paved but says it will not be put down unless the property owners express a desire for it.

"The City Commission and myself have been criticized," said Mr. Riddle, "for turning down all the bids received for paving, when we should be commended for endeavoring to save the property owners several thousands of dollars." He stated further regarding that point: "The people will be permitted to select the kind of paving they want but the city commission must emphatically will not approve a contract for that paving if it thinks the price is too high."

The action of the commission in throwing out the bids will cause a delay of only two weeks and the new bids will prove whether or not the commission acted wisely in not accepting the bids first received. Mr. Riddle stated that the city officials stood ready to abide by the facts disclosed by the new bids.

The assertion has been made that the reason the bids were thrown out was because the estimates were too low and that the officials wanted to cover up their mistake by rejecting the bids and re-advertising the work for sale. As a matter of fact Mr. Riddle asserts that the estimates were fair and that he took the utmost pains to ascertain in advance that they were correctly prepared. The estimates were made by Mr. Riddle with the assistance of an engineer who was employed for that purpose. When they

were complete he took all the figures and visited the engineers at both Springfield and Dayton and had them go over the figures with him and they found them to be correct and entirely fair. To further satisfy himself that his estimates were right he sent all the data to a large western contracting firm by which he was formerly employed and asked their expert to go over the figures with a view to determining whether or not they were correct and fair. That expert said that based upon present prices the estimates were right. This firm is so far away that it would have no possible interest in the contracts beyond conferring a favor on Mr. Riddle and can be counted upon for an unbiased opinion. Then after the bids were received and found to be far above the estimate the matter was taken up with J. E. Lowes a consulting engineer in Dayton who also found the estimates to be correct and fair.

The comparison of the lowest bids received with the city's estimates on three kinds of paving follows:

	Low Bid	Estimate
Sheet Asphalt	\$216,921	\$184,779
Brick	251,259	221,485
Concrete	203,604	167,279

Taking Dayton avenue for instance the lowest bid on brick was \$7.26 per front foot and the estimate was \$6.23 a difference of \$1.03, meaning added cost to the property owner with a 100 foot frontage of over \$100. On the same street a low bid on asphalt was \$6.04 and the estimate was \$5.11, also a difference of nearly \$1.00 per front foot.

The city officials have no other motive in turning down the bids beyond an effort to save this \$1.00 per front foot or a part of it for the property owner.

Neither is there any truth in the statement that the paving may be done on a "cost plus" basis. It is true that the matter was discussed early in the game but it was dropped long ago when it was found that the city could not legally have the work done on "cost plus basis with a fixed maximum."

Therefore the interested citizens have not a thing to worry about in the paving matter except the two weeks delay occasioned by the call for new bids.

ITALIANS MARCH ON CITY OF FIUME

Rome, Sept. 13.—Gabriel D'Annunzio, former aviator in the Italian naval air service, has arrived at Fiume at the head of armed bands of men, it was officially announced here today. The government is taking energetic steps to check any rash movement.

Paris, Sept. 13.—Headed by Gabriele D'Annunzio, famous poet soldier, detachments of Italian grenadiers, marched on Fiume with a view to occupying the town, according to advices from Rome today. The detachments indicated that the troops and leader had acted on their own responsibility. The Italian government has ordered all demonstrations to stop and is making an inquiry.

PAPERS DEPLORE THE SELECTION OF HENDERSON

London, Sept. 13.—All political sections of the press agreed today that the election of Arthur Henderson, the labor leader, in the parliamentary bye election at Widnes yesterday and a severe blow to the coalition.

The papers point out that the loss of five seats by the coalition since the general parliamentary election last December is sure to strengthen the opposition in "trouble making" especially in the cases of conscription and Russia.

Premier Lloyd George is due to return on Tuesday from his vacation.

CRAP AND ALL SORTS OF GAMBLING GAMES FLOURISH IN BOSTON STREETS.

Gambling in Main Street of Boston during Police strike. On the sidewalks, corners, and even on the main streets of the city all sorts of gambling games flourished unmolested during the twenty-four hours of lawlessness which followed the strike of Boston's policemen. Here is shown several games of crap underway on a main thoroughfare of the city.

TWENTY NINE LUMBER DEALERS AND EIGHT MANUFACTURERS OF ICE CREAM INDICTED IN DAYTON

Dayton, Sept. 13.—Thirty-seven indictments were returned by the special grand jury probing the high cost of food, lumber and building material in Dayton, in its third and final report made Friday before Judge Robert C. Patterson in the common pleas court.

Twenty-nine of the indictments were made against lumber dealers of which 21 were against individuals and eight against incorporated companies. Eight indictments were returned against ice cream manufacturers of the city. Two incorporated companies manufacturing ice cream and six individuals were indicted.

The indictments against the lumbermen and ice cream manufacturers and dealers charge a violation of the Valentine anti-trust law.

The lumber interests are charged with engaging in a conspiracy against trade for the purpose of increasing prices, and preventing competition for a period of from December 5, 1916 until August 15, 1919.

The ice cream manufacturers are charged with engaging in a conspiracy against trade for practically the same purposes as charged against the lumbermen for a period of from July 20, 1915, until August 19, 1919.

TWO GREAT UNIONS ARE SOLIDLY BEHIND NATIONALIZATION PLANS

Cleveland, O., Sept. 13.—The two largest bodies of union men in the United States were expected to be solidly lined up behind plans for the nationalization of the rails and mines today as the first step towards a triple alliance of railroad, mine and transport workers.

Glenn E. Plumb author of the Plumb plan for nationalization of the railroads, addressed the convention of the United Mine Workers and appealed to them for their support for the plan. As a result of his appearance before the miners today, Plumb may be requested to take charge of the work of drawing up a plan for nationalization of the mines.

The resolutions committee of the miners has approved a resolution calling for a dual alliance between the railroads and the miners which probably will come before the convention

INSTALLATION CHARGE WILL BE STOPPED

Columbus, O., Sept. 13.—Telephone companies in Ohio will not charge \$3.50 for installation of telephones on or after Oct. 1. In an order issued by the state utilities commission today the rates are suspended and all Ohio companies are instructed to file new schedules by that time. The "service installation" charges were instituted at the instance of Postmaster General Burleson when the government had control of the wires. They were formerly from \$5 to \$15 and afterwards cut to \$3.50. When the government restored the wires to private ownership, provision was

made for the installation charges for a period of four months, except where changes were made by state commissions.

The action of the state commission follows a hearing held several weeks ago in which telephone companies were invited to lay before the commission their reasons for asking for an installation charge. The Bell and Ohio State companies took advantage of the opportunity and presented testimony at that time.

Testimony at that time was to the effect that companies were at large expense in installing telephones by reason of the fact that statistics showed that 90 out of 100 users will abandon their telephones or move to another location every two years.

STOLE \$58,000 OF BONDS.
New York, Sept. 13.—That he might entertain his friends and become known as a genuine "good fellow" Robert Borthwick, 17 years old, stole \$58,000 of bonds.

POOR OLD CHARLIE.

Pittsburg, Pa., Sept. 13.—Charles Schwab, the millionaire steel magnate, found himself "in-hock" yesterday when he could not pay a barber for a shave.

"I came to town without a cent," he explained later, "but forgot that I was broke when I entered the barber shop. I waited nearly half an hour before someone came in who knew me. Then I borrowed enough money to pay the barber and got out of 'hock'."

WITH REGRET XENIA BIDS FAREWELL TO MR. AND MRS. WEIGLE

It was with much regret that Xenians, especially those who have been associated closely with the Chamber of Commerce organizers, bid goodbye to Mr. and Mrs. D. E. Weigle, who left Saturday morning for Chicago.

Mr. Weigle was head of the American City Bureau team that made the new Chamber of Commerce here an established fact, and his co-workers among the local people, who absorbed his wonderful enthusiasm, and felt the radiant energy, ambition and tireless activity which he permeated, admired this splendid young man so much, that genuine regret was in the countenance of everyone who saw him leave. Mrs. Weigle is a charming young woman and she made many friends for herself and her husband, among the people of Xenia.

The work that Mr. Weigle has done for Xenia can never be repaid, for he has made possible the start of a new era for this now thoroughly awakened city, opening up to Xenia and its citizens, opportunities hitherto overlooked, bringing business neighbors to know and admire each other and creating a spirit of brother love and co-operation that will live long in the hearts and minds of Xenians.

Xenians did not bid goodbye to George W. Hanley, Mr. Weigle's able lieutenant, who left Friday night for Indianapolis, because he will return Monday for a month's more work with an installation team. The third member of the team, N. L. Steer, is still here and will be here until he has orders to leave from the Chicago office. He may assist in the installation work.

After a few days in Chicago, Mr. and Mrs. Weigle will again start out into another Chamber of Commerce campaign, at Canton, Illinois, where Mr. Weigle carries with him not only the enthusiasm of a success here, but the best wishes of his many Xenia friends who know that his efforts there cannot help but be fraught with the same measure of success that marked the local campaign.

SEARCH BEING MADE FOR BANK ROBBERS

New York, Sept. 13.—Search is being made today for a band of robbers who held up the Irving Bank Company in Brooklyn and escaped in a high powered automobile with more and \$1,000 in cash.

Harry Schmidt, the proprietor, was about to close up when five men entered, held revolvers to his head and tied him to a chair. While one bandit stood guard four others ransacked the place. The Irving Trust company robbers are believed to be a part of the same gang that boldly held up three Manhattan hotels early yesterday.

STRIKING POLICE OF BOSTON AGREE TO RETURN TO POSTS IF ALLOWED TO RETAIN THEIR UNION

Boston, Sept. 13.—Having voted to return to their posts if allowed to do so as a union, members of the striking police waited upon Governor Calvin Coolidge today to state their case. There was little prospect of the officials conceding this however.

Commissioner Curtis after the action of the policemen's union had been brought to his attention declared that his order barring them from duty stands and Governor Coolidge still the view that the men were "deserters" and should not be reinstated.

The menace of a general strike seemed more remote today than it has since the police walked out Tuesday night. The telephone workers union which was to have voted last night decided to take a referendum next Tuesday. And it is understood that there is much difference of opinion among the firemen.

Order is fully restored in Boston and the city resumed its normal activities, only the presence of armed state guardsmen and volunteer police in the streets serving to remind one of the fact that the police were on strike. This gave every one a chance to concentrate toward a possible settlement of the strike.

The suggestion of Samuel Gompers, president of the American Federation of Labor, that the men return to work under a status quo ante was received with cheers and approved by the strikers, but both Governor Coolidge and Mayor Peters expressed the opinion that this could not be done under the circumstances.

While the men were voting on President Gompers' suggestion, Commissioner Curtis was sending the following order to police captains:

"To captains: In confirmation of the telephone instructions given you this morning at 9:50 o'clock by Deputy Supt. Kimball, I am sending this in writing: That none of the patrolmen who failed to report for duty Sept. 9, 1919, or since that time, may return to duty under any circumstances; nor are they to be allowed to remain or loiter on the premises of the different police houses.

"When officers report back from vacation or sickness the division commander will communicate at once in each instance with the superintendent for instructions.

"You are instructed that no open air rallies or anything calculated to draw a crowd is to be permitted until further orders."

CONGREGATION OF TRINITY BIDS REV. JEWETT AND WIFE FAREWELL

The congregation of Trinity Methodist Episcopal church, said an affectionate good bye to its retiring pastor, the Rev. H. J. Jewett and members of his household, at an informal reception which was held in the lecture room of the church Friday night.

The entire church has just been redecorated, and the scaffolding was taken out of the main auditorium only yesterday, so that the congregation had an opportunity of inspecting and admiring the artistic frescoing as well as honoring their pastor, who had the pleasure of seeing the house of worship placed in such splendid condition before his departure. He will go to Dayton as pastor of Broadway M. E. church, and will preach his farewell sermon here tomorrow.

About 250 people gathered to pay the affectionate tribute to the pastor and his family. As part of the evening's program, the choir sang several numbers, little Miss Street played a piano selection and Mrs. W. H. McCarvey sang.

Mrs. Charles L. Dean presided at the meeting, and she introduced Geo. W. Stokes, secretary of the official board of Trinity, "Our Minute man," she called Mr. Stokes in presenting him to the congregation. Mr. Stokes made a short address, in which he voiced the feeling of appreciation of the congregation for the work of Rev. Jewett had accomplished as pastor, and as representative of the men of the church presented to Mr. Jewett a handsome target pistol. The pastor

who was greatly pleased with the gift, thanked the people warmly.

Mrs. Charles Dean, representing the women, then presented to Mrs. Jewett a beautiful gold wrist watch. Her mother, Mrs. Myers, who makes her home with the Jewett family, was given a lovely little electric budoir lamp. Mrs. W. B. Chew making the presentation and finally Miss Margaret Jewett was given a pin by her Sunday school class, Miss Henrietta Monroe tendering the gift of the girls. Mrs. Jewett and Miss Margaret made very beautiful little talks in accepting the gifts, but Mrs. Myers was so overcome by emotion that she could only utter a brief "thank you."

The serving of a refreshment course followed the program. Although tinged with regret at the separation from the Jewett family, the occasion was a very enjoyable congregational gathering.

FIRST LADY OF THE LAND IN GERMANY.

Frau Frederick Ebert.

Germany's first lady of the land photographed in the garden of the President's mansion in Berlin. This is one of the best portraits of Frau Ebert to reach this country. Berlin newspapers have called attention several times to the fact that President Ebert rarely, if ever, makes a decision on important affairs without consulting with his wife. Frau Ebert can be seen frequently in the garden of the Ebert mansion at her task of studying State affairs.

ONE YEAR AGO.

One year ago Friday morning at exactly 5:30 began the first offensive launched by the American army in France. Less than 24 hours later the famous St. Mihiel salient had been wiped out, more than 15,000 prisoners bagged and American army had won first complete victory scored by an allied army since Germans were hurled back from Gates of Paris in 1914. "In one sweep," wrote Marshall Foch, "they reduced the famous salient which during so long we did not know how to approach." Nearly 250,000 American soldiers engaged in the attack. Operation when completed freed 150 square miles of French territory.

THEATERS

BIJOU

Pretty and clever Dorothy Gish, who has been creating quite a stir of popularity among the theater going public in her latest Paramount offerings has a different sort of story to portray in "Nugget Nell" which appears at the Bijou Theater Monday. In this sterling picture, Dorothy performs as the rough and ready girl of the West, who thinks she is impressed by a city chap, but is disillusioned by his cowardice and finally marries the big Sheriff. David Butler, Raymond Cannon, Regina Searle, James Farley, Bob Fleming, Wilbur Higby and Emily Chichester are in the cast.

ORPHIUM

Produced by herself, in Bessie Barriscale features, "Hearts Asleep" which appears at the Orphium Monday, with Bessie Barriscale in the leading role, is proof that the star of the clever actress is still in the ascendancy. Miss Barriscale won unforgettable fame here in her production "A Corner in Collections" some time ago and she is now producing her own pictures and releasing through Exhibitors Mutual. Her work in "All of a Sudden, Norma" and "A Trick of Fate" have paved the way for her new success in which she is at the height of her glory.

NOTED TENOR, HIS WIFE AND SON RETURN FROM ITALY.

Mr. and Mrs. Enrico Caruso and Enrico, Jr.

Enrico Caruso, noted tenor, accompanied by his wife and Enrico Caruso, Jr., fifteen-year-old son by a former marriage, arrived in New York aboard the Giuseppe Verdi, from Italy. The opera star and his family had spent two months at their villa, near Florence. The tenor and his wife told a graphic story of unsettled conditions in Italy and of a raid on their villa by a crowd of people who commandeered wine, bread and other food. This photo was made on the deck of the Italian liner.

Venerated Relic Lost.

The Black Reed was a relic brought to Scotland by the wife of Malcolm Canmore, and long held in extreme veneration by the Scots. It consisted of a cross of gold, inclosing a piece of the true cross, set in an ebony figure of Christ. It was deposited with the reatha in Edinburgh castle, and carried with them to England by Edward I. and used by him to give increased solemnity to the oaths he exacted from the Scottish magnates. All trace of it is now lost.

Madness of the Moon.

So far as we can gather, there is no foundation for the old belief that the moon affects the mind and brings about madness in some people. The idea may have originated from the word "lunatic," which is derived from "luna" the moon.

EXPLOSION AT GOES

With a thud that was heard in this city, a wheel mill at the Goes Station plant of The Aetna Explosives Company, exploded at 11:30 Friday night. No one was hurt and the loss will be less than \$500. No cause for the explosion can be given by officials of the company.

MOTOR AIDS

Undue haste in replacing a punctured or blow out tube is responsible for multitude of troubles. The most common mistake is pinching the tube. The tube is inserted in an uneven or twisted manner. This causes it to overlap or wrinkle with the result that in a short time it will cut through where it has been overlapped and produce a leak. The same trouble is also caused sometimes by putting a new tube into the tire just as it is taken from the box.

When the tube is applied after mounting there is such an inrush of air that it will often buckle up the tubes, thereby forcing a tiny stem is not pulled out to its proper position. The operator should proceed slowly when a tube. Before putting it in to the casing it should be given a couple shots of air, that it should be applied carefully, the inside, the stem is, always being kept inside. When it is in the casing it should be at least carefully and the fingers forced all around the tire to make sure that the powder has been evenly distributed, and then, before the loose bead is applied the tire should be given a little more air, enough to round it out nicely and prevent pinching.

MRS. SARAH GORDON PASSES AWAY FRIDAY

After a long period of invalidism, death brought relief to Mrs. Sarah Gordon, aged and respected Cedarville resident, who passed away at the home of her daughter, Mrs. Jos. Gano, in Cedarville, at 2:45 o'clock Friday afternoon.

Mrs. Gordon had been suffering for years from rheumatism and for the last ten years has been unable to walk. She was of a patient and cheery disposition, however, and retained her cheerfulness until her death. For the last eight weeks she had been in a serious condition.

Born November 2, 1843, near Grape Grove, Mrs. Gordon had spent all of her seventy-five years of life in Greene county. Her maiden name was Miss Sarah Towel and her marriage to Kemp Gordon took place 55 years ago. Mr. Gordon preceded his wife in death 13 years.

Four children were born to this union, two of whom, Mrs. Joseph Gano and Cassius Gordon, both of Cedarville, survive. Two other children, Foster and Susie, died when still children. Mrs. Gordon also leaves three sisters, Mrs. John Gordon, of near Jamestown, the sisters having married cousins, Mrs. Belle Heilman, of Dayton, and Mrs. Aaron Gordon, of Ann Arbor, Mich. Another sister, Miss Maggie Towel, died many years ago when a young woman.

Mrs. Gordon was a member of the Church of Christ and had been a member of the Grape Grove and later the Gladstone church all of her life.

Funeral services will be held at the home of Mrs. Gano, one half mile west of Cedarville, Sunday afternoon at 2 o'clock. Burial will be made at Grove cemetery.

BULGARIAN PACT IS NEXT IN LINE

Paris, Sept. 13.—With the German and Austrian treaties out of the way and the Bulgarian pact ready for presentation, the Turkish problem is now occupying the attention of the peace delegates.

The Americans are insisting that they can do nothing until the senate acts, but at the same time they admit that Europe cannot be expected to be kept waiting indefinitely for America to make up her mind as to acceptance of a mandate for Turkey. Unless some action is taken before October 1, the situation may compel Europe to step in and slice up the former Ottoman empire at her own convenience, it was declared today.

John W. Prugh Still Sells the Dirt

I am offering the Howard Beatty farm 58 1-4 acres, one mile east of Old Town. 7 room brick house, good barn and out buildings, well fenced and watered, no better dirt. A one man proposition. Near school, church, market and traction. Few as desirable as this ever on the market. First come first served. Exclusive Agent.

I also offer one of 81 51-1 00 acres near Yellow Springs. You must see it to appreciate it. A bargain for a man who wants to make money. Nicely built, a good house and four thousand dollar barn, fine spring water, fences perfect, you can't beat the dirt. Ask me about it.

Another bargain is 127 acres of the best land in the county. Fine home, strictly modern, good barn, fences good. Every inch of this is tillable, level and rich. Near traction, school and college, close to market. Only one like this for sale in the county.

SHODDY

THE DICTIONARY DEFINES THE WORD "SHODDY" AS: "Inferior, Not Genuine, Sham" and, whereas this expression is more popularly applied to clothing, such may with equal good taste and forcefulness be used in connection with lumber for there is such a thing as Shoddy Lumber.

THE EFFECT OF SHODDY LUMBER IN BUILDING is identical with that of shoddy clothing for the individual. For a brief period ostensibly all right, then a sudden giving away and falling apart—old and down and out before its time.

YOU'VE SEEN THEM, THESE HOUSES WHICH WERE built to sell; Imperfections cleverly camouflaged; lumber exposed which possesses no weather resistance; carelessly chosen, imperfectly cut—old in depreciation even before the final nail is driven.

LUMBER IS ONE THING. GOOD LUMBER is the all important thing in building. To build with any other than that of "PERFECT KQUALITY" is to erect upon that foundation of sand which is the Biblical epitome of the foolish man.

HERE IS THE MORAL: BUY ALWAYS WHERE both material and service are guaranteed. Build, not for today and tomorrow, but for a lifetime. Use "PERFECT KQUALITY" Lumber.

COMMITTEE WILL BEGIN CAMPAIGN
ON THE WATER WORKS QUESTION

On Thursday September 25th, the
people of Xenia will vote on the ques-
tion of issuing bonds to purchase
the plant of The Xenia Water Com-
pany and provide funds to improve
the plant by creating a new water
supply thus removing the danger of
another typhoid fever epidemic in this
community and incidentally complying
with the recommendations of the State
Board of Health.

In the twelve days that intervene
before the day of the election a com-
mittee of citizens named some time
ago to secure facts and figures re-
garding the advisability of buying the
plant will endeavor to place these
facts and figures before the
public. Several members of the
committee held a meeting Fri-
day afternoon at which time it was
decided to begin the campaign of in-
formation at once and carry it for-
ward until election day. The first
thing on the program will be a meet-
ing of the committee which is called
for Tuesday evening September 16 to
discuss ways and means of dissemin-
ating the information which the pub-
lic must have in order that it may
vote intelligently on the subject. Later
probably the evening before the day
of the election, a public meeting may
be arranged at which Mr. T. Burgess,
the consulting engineer who has acted
for Xenia in the water works matter,
will be present to answer question of
interested persons. An effort will
also be made to secure a speaker from
some near by city which has a munic-
ipally owned water plant in order
that he may tell the people of Xenia
what benefits have been derived from

public ownership of the water com-
pany in his city.

The committee explains that it has
not started the campaign of informa-
tion earlier because of the other vital
matters which have been occupying
the minds of the public for the past
two weeks making it impossible to get
the undivided attention of the people
on the water works question. Now
that the Soldiers' Home coming
which first occupied the minds and at-
tention of the public is over and the
splendid campaign which brought
forth the Chamber of Commerce is
past the committee feels that it can
get the attention of the people and
drive home the facts and figures
which have been gathered together af-
ter many weeks of hard work.

On Monday the first of a series of
advertisements will be published in
this paper setting forth fifty or more
reasons why many cities have
changed from private to public own-
ership of their public utilities. That
will be the starter and the people of
Xenia, who on September 25th will de-
cide this vital question, should read
it and all other information that will
be presented by the publicity commit-
tee between now and election day.
Citizens are also requested to ask
questions. All questions sent to the
committee will be printed in the news-
paper and publicly answered. The
committee which has undertaken the
work of presenting these facts to the
public will also welcome suggestions.
Questions and suggestions may be
sent to C. F. Ridenour at the office of
the Gazette and Republican.

HIGH SCHOOL NEWS

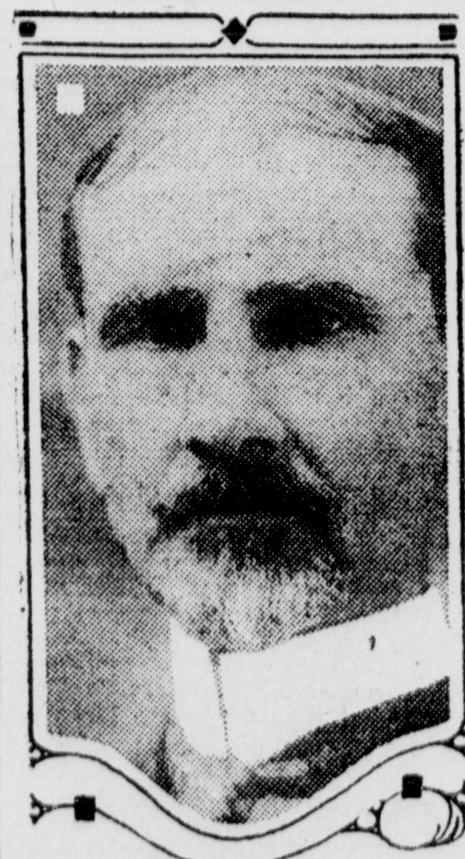

Miss Henrietta Evers has been ap-
pointed supervisor of penmanship in
the elementary and intermediate
schools. She will begin her
new work on next Monday.
Heretofore Miss Evers has been
teaching Geography at Spring Hill
building.

The noon period at McKinley Jun-
ior High School has been lengthened
fifteen minutes. This has been done
to give a longer time for play and
recreation.

Physical education is to play an im-
portant part in the education of
Xenia public school children. Be-
ginning within two or three weeks
each teacher in the grades will give
frequent lessons in gymnastics. Lieut.
Orris R. Jones, principal of McKin-
ley Junior High, is supervisor of this
work and will devote as much of his
time as possible to it.

Enrollment of the Xenia public
schools by grades: 1st, 194; 2nd, 172;
3rd, 178; 4th, 144; 5th, 153; 6th, 145;
7th, 158; 8th, 149; 9th, 127; 10th, 96;
11th, 81; 12th, 81. Total 1,678. This
time last year, 1,313.

Several new teams appear on the
schedule for Xenia High School Foot-
ball Team, prepared by Coach Faires.
The Middletown game is looked for-
ward to with revengful eyes by the
team. Last year at the basketball
tournament held at Delaware, the
blue and white team was put out of
the running by Middletown. This
year the football team is determined
to even up matters with the down
state school. Middletown has the
reputation of putting out strong
teams so an interesting contest is as-
sured. After a year of absence the
Thanksgiving game with the Alumni
again appears on the schedule. Hills-
boro and Greenville are the two other
new teams to be met. Little is known
concerning the strength of either but
they are expected to furnish stiff op-
position. Probably the hardest game
of the season will be with Springfield.
The Clark county is have been
strengthened by the return of several
stars from the service. However

ASKS CONGRESS TO
POPULARIZE FISH
TO LOWER H. C. L.

Dr. H. Frank Moore.

Dr. H. Frank Moore, acting com-
missioner of fisheries, has asked
congress, through Secretary Red-
field, to appropriate \$100,000 to carry
on activities of the fisheries bureau
in obtaining fish for sale to the pub-
lic and to popularize fish as a food
through extensive publicity. It is
pointed out that this would help
lower the cost of living by provid-
ing a cheaper table commodity.

The Beneficent Bat.
The government of the United
States has discovered that the bat,
instead of being useless and worth-
less, as is generally thought, is really
most valuable. He is the inveterate
enemy of all insects that fly at night.
In recent investigations bats shot in
the evening after flying for 12 minutes
were found with stomachs so gorged
with mosquitoes, gnats and small flies
that it was difficult to see how they
could eat any more.

Don't burn good fuel
in a poor stove

It's a useless waste of good fuel and a
needless extravagance to try to burn
it in a poor stove. It is absolutely
wrong to expect good food to supply
energy, vitality, health and happiness
if your stomach won't absorb and as-
similate it. If you cannot eat with en-
joyment, if your food does you no good,
if food distresses rather than bene-
fits, then you have indigestion or
dyspepsia. The best remedy to use is
PEPSINCO.

Ask your druggist—he sells and
recommends Pepsinco.

COMMANDER EARL SMITH ON WAY TO THE PACIFIC COAST

After spending some time at German seaports, Commander Earl Smith, son of Judge R. L. Smith, of this city, and Commander of the U. S. Destroyer Greer, is now on his way to the Pacific Coast.

Commander Smith's vessel has been at Hamburg and Danzig, Germany in port, the latter being the neutral port. At Hamburg the local officer arrived only three days after the food riots occurred, which he described interestingly in a letter to his parents.

The food riots in Hamburg grew out of the claim of citizens that a big meat packer was selling them sausages made from rats. The mob put the packer in a wagon and led him on a long parade, during which he was required to eat sausages while a sign bore the words "make him eat his own meat." The parade ended when they threw the packer into a river. Soldiers later quelled the riots.

Commander Smith returned to New York about two weeks ago, and last Wednesday sailed for the Pacific Coast through the canal. His ship will be located at Bremerton, Wash., which is a great U. S. harbor.

XENIAN GETS CARD FROM MEMBER OF THE FRENCH BAND

Phillip LaBelle, who made friends with many of the members of the French Military Band while it was here, because he could speak French, has received a card from one of them thanking him for a box of chocolates sent to him.

Mr. LaBelle sent a large box of candy to F. Espagnes of Bordeaux, which he expected would please the Frenchman because of the scarcity of candy in France. Monsieur Espagnes said, "I wish to thank you for the excellent candies that you sent me. We found them very nice." He also sent his regards to his other Xenia friends.

The band members are now at their homes and Monsieur Espagnes sent picture cards of the park in his home town, Bordeaux.

MORE MEETINGS ARE SCHEDULED

The following Farm Bureau meetings have been called to complete the reunit of the county in the Hessian fly campaign.

Sugar Creek Township at Bellbrook, Friday, Sept. 12th.

New Jasper Township, at New Jasper, Monday, Sept. 15th.

Cedarville Township, at Cedarville, Tuesday, Sept. 16th.

Bath Township, at Township High School, Thursday, Sept. 18th.

Cesar Creek Township, at High School Building, Friday, Sept. 19.

Owing to the busy season the meetings which have been held have not been as well attended as they should.

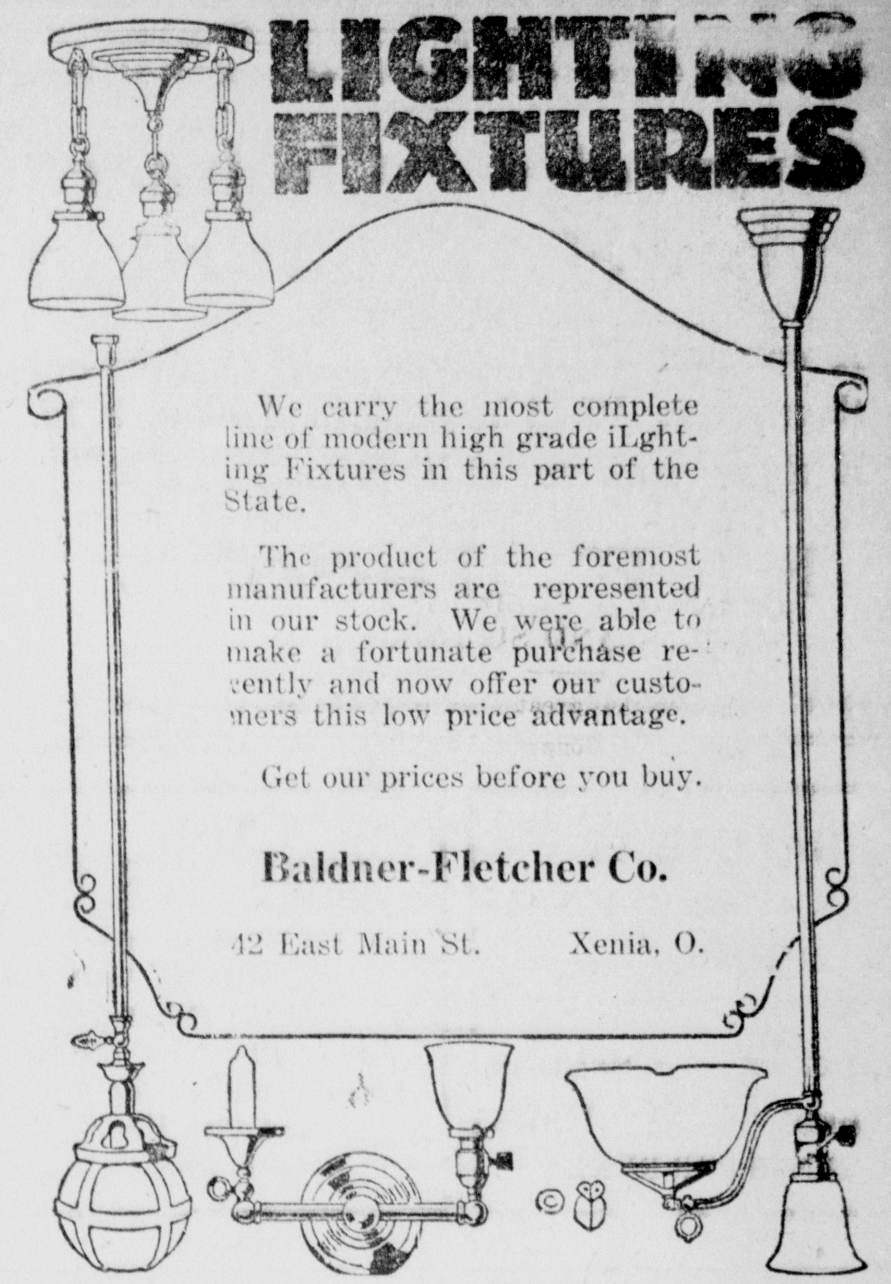

All farmers are invited as it is very important that every Green: County farmer be acquainted with the fly situation.

The meetings are scheduled for 8 p. m.

PROGRESSIVE SOCIAL

A delightful social event was given last evening, September 10th, by men of Mr. Scarff's class of the M. E. Sunday School, Spring Valley, Ohio. Early in the summer there was a contest between ladies and the men of class to see who could bring in the most members who had seemingly forgotten that class was still in session every Sunday morning, and the ladies won. The men on account of work had put off entertaining until last Sunday an invitation was read, inviting all members to meet at Will Crites home at 5:30 prepared for an auto ride. Nothing more, as to where we were to go or what we were to do was a secret and the men kept the secret to the letter, but our curiosity was aroused and you may believe everybody that could possibly go was there and after some little delay the procession of 11 machines started out with Charley Oglesbee as leader headed toward Waynesville. Many were the conjectures of where we were to go and what we were to see, but we turned at Roxana bridge and drove in W. A. Sheehan's yard but much to our surprise without stopping drove out and around to T. Van Pelt's where we parked the machines and started to the house.

We were served quarters of delicious muskmelons. Then we were told to get back into the machines and were taken around by Richland School house and much was our surprise when we drove up in the yard and found an auto loaded with big cats hidden behind the school house. Standing around in the yard we were served in picnic style, buns, fried chicken, pickles, cheese, potato chips and celery. After a social time we were again told to get in the machines and in a round about way were taken back to Will Crites home where the men entertained us with music and served us ice cream and cake. They didn't miss a thing, everything was lovely from start to finish. Charley Oglesbee even thought of the ladies' vanity and passed around a box of powder and puff. Here's hoping for another enjoyable event in the near future.—A Member.

SOWING THE SEEDS OF DISSENT AND SUSPICION.

Although the great Peace Treaty was not before Congress for ratification until this week, the objecting Senators have taken time by the forelock in their flaw picking speeches, and have shown themselves up as a school-boy debating society in their virulent flings at the most important public document ever conceived by man.

Such exhibitions are as humiliating as regrettable, especially at a time like the present, when the civilized world is hanging by the thread of a hoped-for and long-prayed-for peace, attainable only from the mutual co-operative efforts of the leading nations to secure and maintain it.

None of the reactionary senators now desperately fighting the adoption of the peace-treaty covenant can be so obtuse as not to know that half the trouble in the world with nations, as with individuals, grows out of suspicion and misunderstanding. What, then, is to be thought of men clothed with the supposed dignity and authority conferred upon a United States senator when his principal efforts are directed to sowing seeds of dissension, suspicion and doubt, not only upon the President, but upon all the delegates of all the countries constituting the Peace Conference; but even worse than that, scattering broadcast insult and vindictive allusions to the people of other countries, including England and Japan, whose enormous sacrifices to win the war made the victory over German despoliation possible?

Some of the fire-eating talk recently indulged in by opponents of the league are, in view of world conditions and what suffering humanity has passed through since 1914, enough to make any true American hang his head in shame. In the condition of mind these men have worked themselves into it is not strange that they now "engender strife" by trying to precipitate it, wholly ignore the terrible lessons of the war, openly plead the German cause from the "hard and cruel peace that this treaty stipulates" and carry this pleading so far as now to propose repudiating the entire settlement effected at Versailles and favor negotiating a separate peace with Germany; just as though the solemn obligations entered into and formally agreed upon at the Peace Conference should be cast to the winds, and by rejecting the treaty make confusion worse confounded, in order that a few men in the Senate playing the role of common politicians can have their way.

Within the nine months after the armistice and the world's wide celebrations for peace having at last dawned, is it possible that these things can go on with impunity? Must the flaunting of discredit and insult and to other nations to our own discredit continue? Will public opinion rest supinely unheard and permit this play to be staged of constantly embittering forces against every effort for a peace treaty league.

Inasmuch as practically every expression of public opinion, through associations and organizations all over the country and through the press, has repeatedly for months, and to the present time, shown the emphatic majority of more than three or four to one in favor of the prompt ratification of the treaty without amendment, it would be interesting to know upon what basis the reactionary Senators base their action.

That great constitutional lawyer, Ex-President William Howard Taft, has given more months of study to this most important document than have these kicking Senators given hours, and he approves it as the greatest step ever taken for world peace. Day after day, week after week, he has devoted his able talents to the subject, conscientiously believing it the greatest movement ever devised by man. No partisan bias has smirched his great name in his noble co-operation with President Wilson to accomplish the great aim of this treaty. He has gone shovel and tongs in denunciation of Lodge,

Knox & Co., for their frivolous partisanship in this great world crisis. He is a Republican without guile. We feel it an honor to stand with him, and deprecate with much sorrow the action of those Republican Senators who are opposing the Treaty and giving death stabs to their party.

TRYING TO AVOID RAILROAD STRIKES.

Keen interest is being displayed in the Senate as well as in the House in the railroad bill which has been introduced by Senator Cummins and which represents many weeks of work by a sub-committee of the Senate Interstate Commerce Committee whose members are Senators Cummins, Kellogg and Poindexter, Republicans, and Robinson and Pomerehne, Democrats. Demands for thousands of copies of the bill have reached Senators since the measure was introduced.

The provisions in the bill for the settlement of wage and labor disputes are attracting widespread notice. They are also being commented on both favorably and unfavorably. Some opposition is raised by leaders of the railroad employees to the idea in the bill that neither strikes by conspiracy or combination nor lock-outs shall be permitted on the railroads in view of the machinery which is provided to settle wage and labor disputes. This opposition was anticipated. A sharp controversy will rage about this point. Senator Cummins, though he did not personally write this provision into the bill, is convinced the country wants to be relieved from the menace of a railroad tie-up. Moreover, he holds that while as a general proposition the right to strike should not be denied there is a difference between a strike by employees of private capital and a strike by employees of a public utility when the Government has provided the machinery for adjustment of wage difficulties and kindred matters and given the employees large representation in that machinery. He holds there is a distinct line of demarcation between a strike on a publicly controlled public utility with public machinery to adjust wage disputes, and a strike against a private corporation.

HARRY SHANNON IS NOW ABLE TO BE OUT

Harry Shannon, Jr., of Wapakoneta member of the well known Shannon Stock Company, who was injured when he was crushed between a truck and an automobile several days ago, is now able to be up and about with the aid of crutches.

While it was feared that Mr. Shannon was seriously injured, he has felt no pain since last Sunday, and while he does not yet have the use of his right limb, it is thought that he will soon be fully recovered. He is able to stand on both feet, although his right limb pains him in moving it, and he has been able to take an automobile ride.

BUSINESS MEN'S ASSOCIATION IS DEFENDED BY ONE OF ITS MEMBERS

The following is a letter addressed to the editor of this paper written by a member of The Xenia Business Men's association in defense of the fair name of the old organization:

"As a member of the Xenia Business Men's association, I wish to enter a protest against the statements that are being made by various persons; that the association was dead or dying and that it never amounted to a thing."

"I feel that someone should defend the good name of the old association and I, in my feeble way, propose to say something in its defense. While I have not been able to do a great deal to help the Xenia Business Men's Association do the things it was organized to do, I most emphatically am proud of the things it has accomplished. True it did not do the big things that well financed Chambers of Commerce have done in other cities and the big things that I am sure Xenia's new Chamber of Commerce will be able to do, still it did do many things for the benefit of the city. And 'Mr. Curb-stone Kicker' listen to this—the things which were accomplished by the Xenia Business Men's association were accomplished solely and alone by the voluntary, unpaid efforts of some of the members of the association, who had at heart the welfare and advancement of the city. In the past few years Xenia has made splendid forward strides and I for one claim for the Xenia Business Men's Association a large part of the credit for this improvement."

"If it had not been for the Xenia Business Men's association, Xenia would not have its present splendid Commission-manager form of government. East Main street was paved solely through the efforts of this association. If it had not been for the work of a committee from this association the bond issue for East Main street never would have carried. During the years the Xenia Business Men's Association has been in existence several splendid community and county celebrations have been pulled off successfully in Xenia through the efforts of members of this association and others they encouraged to help them in the various projects attempted. If the Xenia Business Men's association had not started the ball rolling, it is safe to say that these events would never have occurred. True many enthusiastic and patriotic men and women, not members of the association, helped in nearly all of these public events, but they did so at the invitation of the association. There are innumerable small things which the association has done which the public has quickly overlooked—things which needed attention and would have received no consideration had it not been for this association."

"If the Business Men's Association had not done one single thing beyond paving the way and making the preliminary arrangements for the establishment of a Chamber of Commerce in Xenia it has done Xenia a service which its citizens will have a hard time repaying."

"I am sure that all fair minded citizens will give the active members of the old association full credit for what they were able to do for betterment of the city. I for one thank them fully, realizing the amount of work they had to do to accomplish the things they carried to a successful conclusion."

"To my mind there is no one quite so small and mean as the man, unwilling to do anything for the betterment of the city, who stands on the street corner and knocks his city and the men who unselfishly have contributed something, no matter how little, to its betterment. If a man, whether as an individual or as the member of a civic society, is a booster for his home town then he is right to criticize others if they do not conduct their work in public matters to suit him. But the man who never helps and always knocks deserves no consideration and the city will be better off when he 'passes on,' no matter where."

"In regard to the statement that the Xenia Business Men's association was dead or dying. It was not dead and it was not dying. With its 37 soldier members coming back from the front thus boosting its membership back to within fifty of the highest membership it ever had it could and would have continued as a permanent

institution, if its officers and members had not realized that a properly organized Chamber of Commerce could do the things the Business Association dreamed of doing, but was unable to do because of lack of finances."

"With plenty of money and with a trained and well paid manager on the job there is nothing within reason that the Chamber of Commerce can not do."

"I say Xenia is to be congratulated upon its new organization and that it should take its hat off to the old one, which made the new one possible."

GREAT FOR EMERGENCIES

San Cura Ointment Should Be In Every Home.

There never was known a more reliable ointment than San Cura. In most every case where it has been used it has created astonishment. It drew a needle out of the foot of the daughter of Mrs. James Hitchcock, of Centerville, Pa., after the doctor had used his lance and failed.

It has great healing and antiseptic value. It possesses so much healing virtue that it is guaranteed by Sayre & Hemphill to relieve any kind of piles, eczema, tetter, salt rheuma, boils, carbuncles, ulcers, all kinds of chronic sores, chilblains, and chapped hands, or money back.

It's a mighty handy remedy to have in the house in emergencies for bruises, burns, cuts or scalds, because it relieves the pain and is antiseptic and healing. It's a medicine chest in itself—a little family physician that is ever in demand. 30c, 60c and \$1.20 a jar at Sayre & Hemphill's.

BEST SKIN SOAP

Is San Cura Soap, because of its great antiseptic and healing virtues. Use it regularly, and it will make the skin soft and velvety; will remove pimples and blackheads. It's the real soap for babies' tender skin, which mothers of infants should remember. 25 cents a cake at Sayre & Hemphill's.

Asserts New Discovery Brings Blessed Relief To Rose and Hay Fever Sufferers

Can Make It Yourself At Home At Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing hay fever into less than a mild cold, claims most emphatically that if taken in time hay fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through pharmacists to all hay fever sufferers who still have faith that nature has provided an effective remedy for this common yet miserable disease.

And best of all this remedy costs no

most nothing. Get a one ounce bottle of Mentholized Arcline at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled.

Then gargle as directed and twice daily sniff or spray each nostril thoroughly.

That's all there is to it; so simple that a lot of people will say that it can't do the work; but oftentimes simple natural remedies are the best as you will find after using.

If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.

MEMBERS WHO JOINED CHAMBER OF COMMERCE THURSDAY AND FRIDAY

The following is the list of persons who joined the Chamber of Commerce during the final two days of the intensive campaign. It is expected that fifty or seventy-five more persons will join the organization within the next week or two. The campaign committee will conduct a "clean up" campaign to make sure that everyone eligible to membership is invited to join. It is probable that a number of desirable persons have not yet been invited to join. The committee takes this means of making it known that no one has been intentionally overlooked. Persons who desire to join the association are requested to ask any of the campaign workers for membership application cards. The Thursday and Friday lists follow:

HERE IS CHANCE FOR NEW CHAMBER COMMERCE TO ACT

Headed by the famous Rainbow Band more than two hundred business men, members of the Manufacturers' and Jobbers' Association of the Columbus Chamber of Commerce will visit Xenia, Wednesday, Sept. 17th. They are due to arrive on a special train at 10:50 a. m., remaining 1 hour and 25 minutes. Leaving Columbus early that morning the party will make stops also at London, South Chales-ton, Cedarville, Morrow, Wilmington, Sabina and Washington Court House. To become better acquainted with the business men of other Ohio cities and to make known to them the trading advantages Columbus offers, are the chief objects of the tour. That a hearty welcome awaits the visitors is assured, as Columbus business men have not forgotten the friendly greeting they received on their former visit to the same cities. At each stop the Rainbow Band will lead the business men in a march to the center of the city, where a concert will be given. Mayor Gee, J. Karb and Supreme Court Judge Maurice H. Donahue will be among those who will accompany the tourists. The train will carry a commissary car, where food and other refreshments will be served the tourists the entire day. Arrangements for the tour are being made by Robert O'Brien, Manager of the Manufacturers' and Jobbers' Association.

JEALOUS SANDRA THE

BY JANE PHELPS.

SANDRA IS FRIGHTENED CHAPTER LXVI

An officer came soon after I had dressed and took a list of all that was missing, with a description of each article. He gave scant hope that we would catch the burglar, giving, as at least one reason, the ticket in my bag. "You see, if he had to stop at the ticket office and buy a ticket to get out of town, it would be one more clue. But all he had to do was to walk to the gate and get in the crowd going through."

Again I wondered what Everett would say when he heard this. Had I not disobeyed him and followed him to the station, I should not have bought the ticket and the burglar could not have used it.

I had gone to see Hetty's friend to find out more about Leola, and Thomas had been injured and the motor car damaged. I had allowed the burglar who had shot James to get away with my jewels, because I had bought a ticket to New York, when he had told me I shouldn't go. He would come home to an upset household, my sapphires gone, both men unable to walk upon him, and a lot of notoriety besides—something he abhorred.

Thinking of it all made me so nervous I could scarcely bear it. I was not a normal woman perhaps—I was too immature, too young. Certainly I was not normal where Everett was concerned. He would come home, find I had followed him to the station, and then he would hear of the robbery—if he had not already done so, and I would be so unhappy because of his displeasure that I would cry again and be utterly miserable.

Then, too, the presence of an officer in the house was upsetting. He had been so curious, had asked so many questions as to why I had that ticket to New York, that I felt horribly uncomfortable. It was as if I knew the burglar and had helped him get away. I told Mrs. Gray when I could keep still no longer.

"Don't mind him," she told me. "They have to be suspicious, you know. It was unfortunate that you had it, that is all."

"Mrs. Gray do you suppose Ev—Mr. Graham will blame me for all that has happened?" I could keep still no longer. And she looked so sympathetic so kind, that I just blurted out: "He told me he wouldn't take me, but I went to the station just the same, and tried to follow him. Then I was so disappointed I didn't know what to do, so I proposed the visit to Hetty's friend. Then Thomas was hurt and the machine damaged. But if I had gone with him and taken my jewelry there would have been nothing much for the burglar to have taken and perhaps no one would have heard him and James would not have been shot. Oh, dear, I seem to have been to blame for everything that has happened!"

"Don't feel that way, Mrs. Graham. I am sorry you went against your husband's wishes, and so had that ticket for the burglar—yet after all he may not have used it. But accidents are unavoidable. Take it all in all, you might have been terribly injured in the automobile accident and you might have been shot by the burglar instead of James."

"But Mrs. Gray—would he have scolded his first—the first Mrs. Graham?"

"Mercy, not! He never scolded her for anything!" He recollected: "He won't scold you either. He will be too thankful you are not injured," but I noticed that when she spoke so impulsively—for her—of Leola, she flushed as if she had regretted her words, and had looked remorsefully at me.

"You are sure he wouldn't have scolded her?"

"I never heard him say a cross word to her," she acknowledged.

"Then he shan't scold me! Just because he was unhappy because of some things she did. I am not going to be treated like a child, and made to walk a crack. It isn't fair!"

The door bell rang just then. Hetty brought me a yellow message. I opened it and read:

"Home late tonight! Do not sit up for me—Everett."

COMPLETE SURPRISE

Howard Manor and Miss Ruth Burrell entertained about forty young people at a surprise and miscellaneous shower for Mr. and Mrs. Lawrence Manor (Hazel Hampton) Thursday evening, Sept. 11, at the Manor home. The young people wanted to remind them that it was their second wedding anniversary.

Mr. Lawrence Manor spent eleven months overseas and was discharged from service early this summer. Mr. and Mrs. Manor received many beautiful and useful gifts. The evening was spent in music and games.

All departed at a late hour with best wishes for a long and happy married life.

To Clean Brown Leather Bag.

Brown leather bags may be cleaned by rubbing on a thick lather of pure white soap. Apply it with a sponge, rub hard, let it remain on a few minutes, then wipe dry with flannel cloth and polish with vaseline; rub this in with bare hand; rub very hard; don't use too much and wipe it off well and your bag will look nice.

EVERYDAY ETIQUETTE

There is a young man in my college who has taken me to different entertainments. Should he ask to call or should I ask him? Also is it proper to hand my coat to my escort or should he offer to help me on with it?" questioned Mildred.

"It is your privilege to ask the young man to call. Usually a young man offers to help the young lady on with her coat. If he should not, and you need help ask him," was her aunt's reply.

Flea in Amber.

The history of the flea would seem to go back many centuries, but the only fossil remains of a flea that have so far been found, is a single insect in a bit of Baltic amber. The flea is admirably preserved by its semi-transparent surroundings, and is in the collection of Professor Clebs.
